**Biography:**

My name is Kim Duong and I am a proud member of the Artists and Children Together initiative. I am an Interior Design graduate from the FIDER and ARIDO accredited Ryerson University; and have been living and working as a design consultant in the GTA, Halton and Peel areas for the last ten years.

I am pleased to be able to contribute to the development and facilitation of communicating artistically through this initiative. My goal is to show children that art is not just an activity but rather a means of expressing themselves through their creative process and through the work that they are able to produce. We will be exploring and using different materials, found objects, and artistic tools such as conté, charcoal, paints, pastels, etc. coupled with time, space and documentation. I hope to reflect their capabilities, and help them form an understanding of themselves through the materials around them and their interactions with each other.
